About SumConcepts

Formed with a vision to take technology led quality education at affordable costs to the masses, SumConcepts is an organization with strong social motive. We believe that our projects, products and services need to be socially relevant to create a sustainable **Growth** and **Impact.**

In 2009, inspired by multiple meetings with **Bharat Ratna Dr. APJ Abdul Kalam**, promoters launched **Kompkin**; India's first Comprehensive Knowledge and Educational System for schools and students. Designed and developed by experts, today Kompkin has benefitted more than **4.5 million students through more than 40,000+ classroom installations** in rural and underprivileged schools of Maharashtra.

In last 15+ years, Kompkin has teamed up with reputed **Corporates, NGOs and Government** to transform the ways in which teachers teach and students learn. Kompkin model ensures that its eLearning projects are **Measurable, Sustainable and Visible**.

Feedback received till date indicates **reduced dropouts, lower absenteeism, improved passing percentage** and greater interest in difficult subjects like **Science and Maths** through **conceptual learning**. The most important outcome is the **Confidence** in students who are looking forward to brighter future.

Kompkin Highlights

- Developed by Psychologists, Teachers, Career Counselors and IT Professionals

KOMPKIN E-NJOY-LEARNING THRU CS

TOWARDS TECHNOLOGY SUPPORTED QUALITY EDUCATION IN

Almost 68 years since independence, the quality of Education still remains a concern for India. Various reports indicate that though the literacy rates are improving, the quality of Education is deteriorating. Check this

- 40%+ Students dropouts before reaching secondary level
- 52% of class V students cannot read class II text book
- 75% of class III students cannot do simple two digit subtraction
- 74% of class V students cannot do simple division

Kompkin®

Kompkin, Your CSR Partner

Measurable – Sustainable – Visible

Indian Conglomerates have always been actively and generously involved in social projects benefiting masses. **Education is core** to fulfill a vision of developed nation. SumConcepts has been complimenting this vision for CSR projects as their **implementing partner** since 2009 beginning its journey with organizations like Suzlon and Lupin and Rotary International.

With our team's experience in CSR projects, **we customize our solutions to suit your needs.** Our team can recommend beneficiary schools or implement the projects in the region of your preference with established systems, flawless implementation, training, documentation and feedback mechanism. We ensure that the **Donors are recognized** appropriately through visuals in software as also in schools thru name boards and inaugural functions.

Our on-ground service team ensures seamless support across **remote locations,** making every project **truly Measurable, Sustainable, Visible.**
